

HEADER TRAILERS

FROM THE HARVESTING TECHNICAL SPECIALIST

always one step ahead!

BISO PRODUCES **HEADER TRAILERS** IN DIFFERENT DESIGNS SINCE THE YEAR 1993 AND THEREFORE HAS MUCH EXPERIENCE AND KNOW HOW IN THIS TECHNIQUE.

> ONE MANUFACTURER FOR ALL HEADERS

The 4 different models allow our customers to find the suitable trailer for small and also large headers up to 16 m cutting width. In addition each trailer can be equipped individually with different options, and so each farmer can choose the best package for himself.

> INCREASING DEMANDS ON HEADER TRAILERS

As the headers are getting wider and also the combines are running faster, also the demands on header trailers are increasing. We have accepted this challenge and with the market introduction of the PROFI STEER trailer with rear axle steering we can now offer the perfect trailer for large headers with optimal manoeuvrability. Of course all of our trailers are optionally available with type approval for 40 km/h.

> SUPPORTS AVAILABLE IN COLOR OF THE COMBINE

The main beam, the axle and the light bar of the trailers are carried out in neutral, black color. The supports for the header are painted in yellow BISO color as standard. On request and without extra charge they are also available in color of the combine. That gives a perfect color grade to your header/trailer combination.

> SUPPORTS EASILY MOVEABLE IF REQUIRED

The heart of each trailer are the supports. Our machine-welded supports are adjusted for each header type and ensure the optimal support on the trailer. A big plus is the easy adjustment of angle and position of the supports.

> EASY AND COMFORTABLE LOCKING

A big plus is the easy operable locking of the header on the trailer. Only a simple attaching lever has to be moved. When designing we set highest priority in a big tolerance range for loading and unloading of the header.

CONTENTS

04

PROFI STEER

- + Suitable for header widths up to 16 m and 6.000 kg max. permissible total weight
- + Perfect manoeuvrability through the rear steering axle with integral hydraulic system
- + Wide front axle

06

PROFI

- + Suitable for header widths up to 10,7 m and 4.500 kg max. permissible total weight
- + Optimal positioning of the rear axle, no collision with the feeder house
- + Smooth and easy manoeuvrability

08

TANDEM

- + Suitable for header widths up to 9,15 m and 3.650 kg max. permissible total weight
- + Smooth handling
- + Extendable drawbar

10

SWIFT

- + Suitable for header widths up to 7 m and 3.100 kg max. permissible total weight
- + Extendable drawbar

BISO TRAILERS FOR NEW HOLLAND HEADERS

15

BISO TRAILERS FOR VX CROP RANGER AND ULTRALIGHT HEADERS

> BISO PROFI STEER

The **PROFI STEER** is the **Ultimate under the header trailers**. The trailer is characterized by the hydraulic rear steering axle, which ensures an **excellent manoeuvrability** even in tight corners or going around roundabouts, so **moving of large headers with a combine or tractor is now easy**. Further advantages are the front axle with full width for better driving comfort and the lower structure of the turntable, which shortens the total length of the trailer.

THE ADVANTAGES AT A GLANCE:

- > Suitable for header widths up to 16 m and 5.600 kg max. permissible total weight
- > Perfect manoeuvrability through the rear steering axle with integral hydraulic system
- > Optimal supports for all header types
- > Drawbar adjustable in height
- > Supports with angle adjustment
- > Overrunning- and parking brake
- > TÜV certification and type approval up to 25 km/h (40 km/h Option)
- > No hydraulic- and brake lines under the frame
- > Tyres 260/70/15,3 14 Ply
- > Supports available in color of the combine (Option)
- > Transport box for side knives 1,8 x 1,2 x 0,3 m (Option)

shortens the total length

REAR STEERING AXLE USING
INTEGRAL HYDRAULIC SYSTEM
for perfect following

> The BISO PROFI STEER is the perfect trailer for big headers. This trailer is equipped with the rear steering axle, so moving of large headers with a combine or tractor is now easy. Further, the trailer has excellent manoeuvrability even in tight corners or going around roundabouts. I can highly recommend the PROFI STEER for cutting width of 10,7 m.<

LORENZ RINDLER, 18519 SUNDHAGEN, GERMANY

> BISO PROFI

The BISO PROFI trailer is suitable for cutting widths up to 10,7 m. The trailer is attractive for its **smooth and comfortable manoeuvrability** due to the two axles with turntable at the front. The optimal positioning of the rear axle outside of the feeder house **prevents collisions** when loading or unloading the header.

THE ADVANTAGES AT A GLANCE:

- > Suitable for header widths up to 10,7 m and 4.500 kg max. permissible total weight
- > Smooth and easy manoeuvrability
- > Optimal supports for all header types
- > Supports with angle adjustment
- > TÜV certification and type approval up to 25 km/h (40 km/h Option)
- > Overrunning- and parking brake
- > Tyres 260/70/15,3 14 Ply
- > Reinforced brake up to 5.600 kg max. permissible total weight (Option)
- > Additional supports (Option)
- > Supports available in color of the combine (Option)
- > Transport box for side knives 1,8 x 1,2 x 0,3 m (Option)

OPTIMAL POSITIONING OF THE REAR AXLE
no collision with the feeder house

> We have 2 BISO PROFIL trailers in use and are very satisfied especially with the smooth and comfortable manoeuvrability. Another big plus of the PROFIL trailer is the outside of the feeder house positioned rear axle making loading and unloading of the header much easier.<

NEUMEIER MAX JUN./SEN., 84030 ERGOLDING, GERMANY

> BISO TANDEM

The BISO **TANDEM** trailer is suitable for cutting widths up to 9,15 m. The Tandem axle allows the very good weight distribution and reversing without problems.

THE ADVANTAGES AT A GLANCE:

- > Suitable for header widths up to 9,15 m and 3.650 kg max. permissible total weight
- > TÜV certification and type approval up to 25 km/h (40 km/h Option)
- > Low tyres 225/55 B12
- > Optimal weight distribution of the header
- > Perfect fixing with simple quick fasteners
- > Smooth handling
- > Overrunning brake (Option)
- > Parking brake (Option)
- > Winch for drawbar eye (Option)
- > Additional support (Option)
- > Supports available in color of the combine (Option)

> I bought a BISO TANDEM trailer with overrunning brake from the Agritelma.
This overrunning brake improves the driving comfort and provides additional safety.
The trailer follows nice and smooth behind my combine.<

MR. BEZLER, 73275 OHMDEN, GERMANY

> BISO SWIFT

The **economical SWIFT** trailer with extendable axle is suitable for cutting width up to 7,3 m. Both axle and supports are freely movable and adjustable depending on customer requirements and allow an **optimal adaptation to each header**.

THE ADVANTAGES AT A GLANCE:

- > Suitable for header widths up to 7,3 m and 3.100 kg max. permissible total weight
- > TÜV certification and type approval up to 25 km/h (40 km/h Option)
- > Tyres 260/70/15,3 14 Ply
- > Perfect fixing with simple quick fasteners
- > Overrunning brake (Option)
- > Parking brake (Option)
- > Low tyres 23 x 9-10 20 Ply (Option)
- > Extendable axle for easier taking-off of the header (Option)
- > Winch for drawbar eye (Option)
- > Transport box for side knives 1,8 x 1,2 x 0,3 m (Option)
- > Additional support (Option)
- > Supports available in color of the combine (Option)

> We run a BISO SWIFT trailer and it is following smooth behind our New Holland combine. An advantage is that we can slide in the drawbar, that saves space in the barn.<

JENS STEFAN, AGRAR ASSOCIATION KUTSCHER, 04746 HARTHA, GERMANY

> OPTIONAL HIGHLIGHTS

BISO header trailers can be equipped with lots of different options. So every customer can buy his trailer fitting exactly for his requirements.

**OVERRUNNING- AND PARKING BRAKE
FOR SWIFT AND TANDEM**

For better driving comfort

WINCH FOR SWIFT AND TANDEM

For pulling of the trailer when attaching

EXTENDABLE AXLE FOR SWIFT

To avoid collisions with the feeder house when loading or unloading and to ensure a wide and secure wheel base

LOW TYRES FOR SWIFT

Absolutely necessary for combines with limited lifting

TRANSPORT BOX 1,8 X 1,2 X 0,3 M

That parts like side knife consoles are always ready to hand

40 KM/H DESIGN (MUDGUARDS, FOUR-WHEEL BRAKE ETC.)

Available for all BISO header trailers

> USERFRIENDLY DETAILS

BISO header trailers are characterized by many details, which enable easy handling for our customers.

OPTIMAL ADJUSTED SUPPORTS FOR EACH HEADER
For safe putting on the trailer

EASY TO BE OPERATED, SAFE LOCKING
With large tolerances when loading and unloading the header

BISO SPIKE PROFILES
For easy and perfect adjusting of the right angle

EASY MOVABLE DRAWBAR
For perfect adaptation to each header width at SWIFT and TANDEM trailer

WHEEL CHOCKS
For securing on uneven ground

HIGHER POSITIONED LIGHT BAR
To avoid damages at steep field entrances

> BISO TRAILERS FOR NEW HOLLAND HEADERS

BISO header trailers are perfectly adapted to the different New Holland headers and guarantee a safe transport and easy locking system.

The selection chart below shows you the right selection of BISO trailers for the different New Holland headers.
